Compliance Simplified

Let's face it. Compliance with affirmative action program (AAP) rules is anything but simple. Keeping up with the latest statistical testing options and AAP regulations is not the best use of a busy HR manager's time. That's where a MALY consultant comes in. We don't just send you a pile of statistical reports. We get to know your data and we explain the reports to you — and to inquisitive government auditors on your behalf.

MALY clients sleep at night knowing AAP compliance is one aspect of their HR program that is taken care of. Simplify *your* compliance today — call a MALY consultant at 301-253-3183.
